## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-9 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not adequately disclose the dissecting member **carried by the jaws** including at least one aperture formed therein as recited by the claims.

### ***Response to Arguments***

Applicant's arguments filed 3/11/04 have been fully considered but they are not persuasive. In response to Examiner's section 112 first paragraph rejection of the claims, the Applicant has submitted arguments stating that paragraph 173 and figures 70-72 of the disclosure disclose a bullet dissector comprising a plurality of holes which read upon the recitation of an aperture as recited in the claims. Examiner does agree that an aperture is defined as a hole. However, it is not agreed that the disclosure of paragraph 173 and figures 70-72 adequately teach or suggest all of the limitations of the

claims, specifically first and second jaws and a dissecting member including at least one aperture, carried by the jaws. .

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rosiland S Rollins whose telephone number is 703/3082711. The examiner can normally be reached on Mon.-Fri. 9:00 AM - 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda C. Dvorak can be reached on 703/3080994. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703/3080858.
